WORKSHOP · FALL 2026 · PURPOSE: DEMYSTIFY AI AGENTS

AI AGENTS WHAT? HOW? USE.

AI Agents: What? How? & Learning to Use Them

A friendly two-hour workshop for the whole SAIT community. **No prior experience.** Chatbots answer. **Agents act.** Every attendee leaves having used an AI agent for a real task.

01 · PERCEIVE
SEE IT
Notice the task, the files, the question. An agent starts by taking in more than the chat window.

02 · DECIDE
PLAN IT
Pick a next useful step. It chooses a tool instead of only talking back.

03 · ACT
DO IT
Call a tool, check the result, repeat. Limitations and risks stay on the table.

01	15 min	**Welcome, club presentation, new member sign-ups**
02	30 min	**What is an AI agent?** Chatbot vs agent, everyday examples, live demos
03	30 min	**How do they work?** Perceive → decide → act, tools, limitations and risks
04	30 min	**Hands-on: use an agent for a concrete task** Studying, resume, or a project
05	15 min	**Q&A and open discussion**

Task A
STUDYING
Turn a syllabus into a study plan you will actually open next week.

Task B
RESUME
Draft with an agent, then put a human finish on it so it still sounds like you.

Task C
PROJECT
Automate one recurring assignment. Keep only what still saves time.

LEAVE HAVING USED ONE

All SAIT students, all programs. Bring a laptop if you have one. New members welcome. On campus · no alcohol.
